DOB 25-05-2001

Objective

To leverage my 1 year of experience in React.js and React Native, along with strong skills in JavaScript, HTML5, CSS3, and Node.js, to contribute to the growth and success of an organization. by

Experience

Software Developer

October -2022 - current

- Developed and maintained internal company domain projects using React.js.
- Collaborated in a team of 3 to create an application for employees to manage timesheets and internal exercises.
- Ensured project completion by reviewing deliverables and implementing necessary corrections.
- Contributed to the creation of "Product Analytics," a React-based website for client conference call meetings.
- Demonstrated strong problem-solving skills and the ability to learn new concepts efficiently

Education

Ramco institute of technology
Bachelor of Engineering
Electronic communication Engineering
2022 — **7.4**

Adharsh Matriculation higher secondary school
Secondary School Leaving Certificate
2016 — **83.6**

IIPE Matriculation higher secondary school
Higher Secondary Certificate
2018 — **75.4**

Skills

- •
- React.js
- React Native
- JavaScript (ES5, ES6)
- HTML5
- CSS3
- Node.js
- Strong Communication Skills
- Result-oriented and Hardworking
- Quick Learner of New Technologies

Projects

INTERNAL COMPANY DOMAIN
Environment: React
Synopsis: This application was created for employees and where employees can fill their timesheet

-Led a 3-member team in developing an application facilitating employee timesheet submission and internal exercise tracking using React.
- Oversaw the end-to-end process from submission to review, ensuring streamlined operations.
- Managed employee leave details and maintained a user-friendly interface

PRODUCT ANALYTICS
Environment: React

- Co-created a React and React Native-based website catering to client conference call meetings.
- Enhanced data analysis skills by developing a graph component displaying user engagement over the month.
- Demonstrated adaptability and proactive problem-solving.

Order Tracking App
Environment :React Native, JavaScript, and any relevant libraries or APIs.

Provide a brief description of the project, highlighting its purpose and key features, such as real-time order tracking, user authentication, and order history.

Project Description : Mention your proficiency in React Native development, including creating components, state management, and navigation.
Discuss your ability to work with APIs to fetch and display order data.
Emphasize any problem-solving or debugging skills you applied during development.

Challenges : Addressed challenges in real-time order tracking, including handling complex geolocation data and ensuring seamless communication with the server.

Lessons Learned : Mention any valuable lessons or insights gained from this project, especially if you improved your coding, design, or project management skills.
Add about firebase

React Native DJ Song Request App
Environment : React Native, JavaScript, and any relevant libraries or APIs.

Key Features:
Song Requests : Mention that users can request songs to be played by the DJ.
Real-time Communication: Emphasize real-time communication between users and the DJ.
User Authentication : If applicable, discuss how user authentication is implemented.
Development Skills : Highlight your proficiency in React Native development and state managements
Discuss your ability to create real-time communication featurers

Lessons Learned : Overcame challenges in real-time song request handling and synchronization to ensure a seamless and responsive user experience at DJ events
Lessons Learned: How to optimize our codebase and thoroughly verify the contents of all folders.

Interest

Open-Source Contributions: Actively contributed to open-source React JS projects, showcasing a dedication to community-driven development and coding standards.
Tech Conferences: Regularly attended tech conferences and workshops, staying updated with the latest trends and networking with fellow developer.

Interest in Project Management: As an experienced React JS developer, I have developed a keen interest in project management due to my natural inclination towards leadership and collaboration. My proficiency in team management has allowed me to effectively lead cross-functional teams during the development of various projects. I thrive in coordinating efforts, setting clear goals, and ensuring efficient communication among team members. With a strong foundation in coding and a passion for optimizing workflows, I am eager to transition into a project management role, where I can leverage my technical skills and leadership abilities to drive successful project outcomes.

Additional Information

IELTS Preparation: Currently dedicated to improving English language proficiency for academic and professional purposes. Actively engaged in self-study and practice to

	achieve desired IELTS scores
PROFILE SUMMARY	Experienced Software Developer with a year of hands-on experience in React.js and React Native development. Skilled in creating and reviewing deliverables, ensuring project completion within deadlines. Proficient in UI/UX design, software and website development, and maintaining user interface standards
DECLARATION	I hereby declare that the details mentioned above are true to the best of my knowledge.
